

WALL PANEL - DIRECT MOUNTING SYSTEM

- MCM Acoustical's Direct Mounting system is designed to attach wall panels directly to wall substrate using z-clips.
- Wall substrate can be 3/4" thick x 3" wide plywood strip or hat / furring channel screwed directly to wall frame.
- Aluminum z-clip tracks are screwed to wall substrate.
- Aluminum z-clips are attached to the back of the wall panels with wood screws provided. Typically mounting holes are factory located and pre-drilled. Spacing between clips must not exceed 24" in both directions vertical and horizontal.
- Aluminum z-clip attached to the back of wall panel interlock with Aluminum z-clip track attached to wall substrate.
